LETTER TO THE STUDENTS

Dear Students:

April 30, 2012

Congratulations on your outstanding achievement in reaching the national finals of the We the People: The Citizen and the Constitution program. Your presence at this event is the result of many hours of individual study and teamwork. The excellence that you have demonstrated is also testimony to the dedication and support of your fine teachers.

Regardless of which classes place first, second, or third, you have, by your diligence and hard work, won something far more valuable than certificates and trophies. As a result of your studies, you have gained a deep knowledge and understanding of the fundamental principles and values of our constitutional democracy. This knowledge will undoubtedly sharpen your perceptions of the world of government and politics. Perhaps more importantly, it will enhance your ability to fulfill the obligations and enjoy the benefits of citizenship in the United States.

More than two hundred years ago, the Framers believed that their study of history and the “newly improved science of politics” would make it possible for them to create a government that would possess enough power to govern, yet would be structured in a way that would not endanger the rights of the people. The Framers’ innovative use of the principles of separation of powers, checks and balances, and federalism resulted in a type of government never before known. That form of government, which you know from your studies, is an “extended republic.” At the same time, they also believed that even the most ingenious institutional structure ultimately required the support of a people who possess some degree of civic or political virtue. To flourish, the new government required citizens who were frugal, industrious, ambitious, and yet mindful of the common welfare.

Your commitment to the ideals of constitutional democracy and your willingness to participate in our political system are essential to the preservation of that form of government as well as the ideal it reflects: the equal right of all people to enjoy life, liberty, and the pursuit of happiness. You must constantly remind yourselves of the most fundamental of the Framers' beliefs—that government is the servant, not the master, of the people.

We hope that this program has revealed to you the significance of your commitment and your participation so that you will join in the struggle to narrow the gap between the ideals of our nation and the realities of our society.

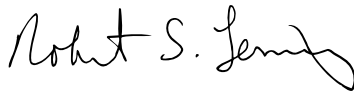

It is to you—the future of this nation—and to your teachers that this program is dedicated.

Sincerely,

A handwritten signature in black ink that reads "Charles N. Quigley". The signature is written in a cursive, flowing style.
